

# Kelly Koolers

- Box design and construction
- Custom refrigeration design and installation
- Service and maintenance

- Custom-designed, wood-framed, polyurethane, foamed-in-place insulation panels allow for virtually any configuration. Made in the USA.
- Tongue-and-groove, 26-gauge wall system for exceptional air-tight seal.
- Select from 3.5in or 5.5in thickness, plus numerous options, including flooring.
- Trust the installation expertise of the Shamrock Group, which has assembled Kelly Koolers for over 40 years.
- All refrigeration systems are custom designed to accommodate every factor, including box placement, roofing, etc.

## Split-Level Keg Cooler

The Shamrock Group designed and built this 3-level cooler for Interlachen Country Club, Edina, which had limited space for its keg cooler. The staggered levels are accessed using stainless steel ladders.
