

David vs. Goliath

(And as you know, David wins.)

THE LOCAL FAVORITE: SOLID PUREFECTION

Ace Ice has manufactured packaged ice longer than any other company in the Twin Cities area. Our major competitor might have quite a presence in the area, but what Ace Ice lacks in a Big Business mentality, we make up for in concentrating solely on our product purity and first-class service.

Pure. We use Minnesota NorthWoods filtered water. And every bag of ice is 100% metal detected.

Perfect. Our smaller cubes cool drinks down more quickly; plus, they are better for blender blades.

Call us, day or night, weekday or weekend.
We're open after hours, because
we know you are, too.

- Minnesota-made quality
- 7 days/week service, plus nights
- Exceptional drying process so cubes stay loose in the bag
- 100% metal detection
- Also: Crushed, blocks, dry ice and ice sculptures
