

Shamrock Beer Gas Rental Program

System Level

Product No. System Description

**Platinum
44332KIT**

100% Pure Nitrogen

- Includes two cylinder rentals, two regulators, changeover valve and CO₂ leak indicator.
- Nitrogen gas additional at \$55.00/Large K Tank.

NOTE: All nitrogen must be purchased from the Shamrock Group, per Rental Agreement.

- Unlimited keg capacity.
- Twin Blend capability for Stout and Lager blends.

The art and science of the Perfect Pour.

Shamrock Beer Gas is a blend of just the right amount of CO₂ and Nitrogen gases so you pour perfectly, from the first keg to the last drop.

Flat beer is the result of under carbonation.

**Gold
46197**

98% Pure Nitrogen

Uses either the Chart GeN₂TM Nitrogen Generator or the MilCarb N2U Generator. Both:

- Provide a reliable, uninterrupted flow of the correct blended gas mix.
- Meet high-volume demand.
- Compact size, easy maintenance.
- Filters must be replaced every 6 months or 500 hours; filters at customer's expense while labor is free.
- System requires a Nitrogen Twin Blender. Use your own or rent from us. See next page.

Foaming beer is caused by over carbonation.

**Silver
82010**

97% Pure "Fizz"

- Includes back-up tank system, changeover valve and CO₂ leak indicator.
- Includes a Shamrock Nitrogen Generator, 120v, 15amp.
- Installs at room temperature below 80°F.
- Capacity: 5-16gal kegs/hr.
- Filters must be replaced every 6 months or 500 hours (filter at customer's expense; labor, no charge).
- System requires a Nitrogen Twin Blender. Use your own or rent from us. See next page.

Shamrock Beer Gas ensures proper and consistent carbonation, regardless how much beer remains in the keg.
